Payment Methods at Hyyat Host: Mada, Visa and Bank Transfer

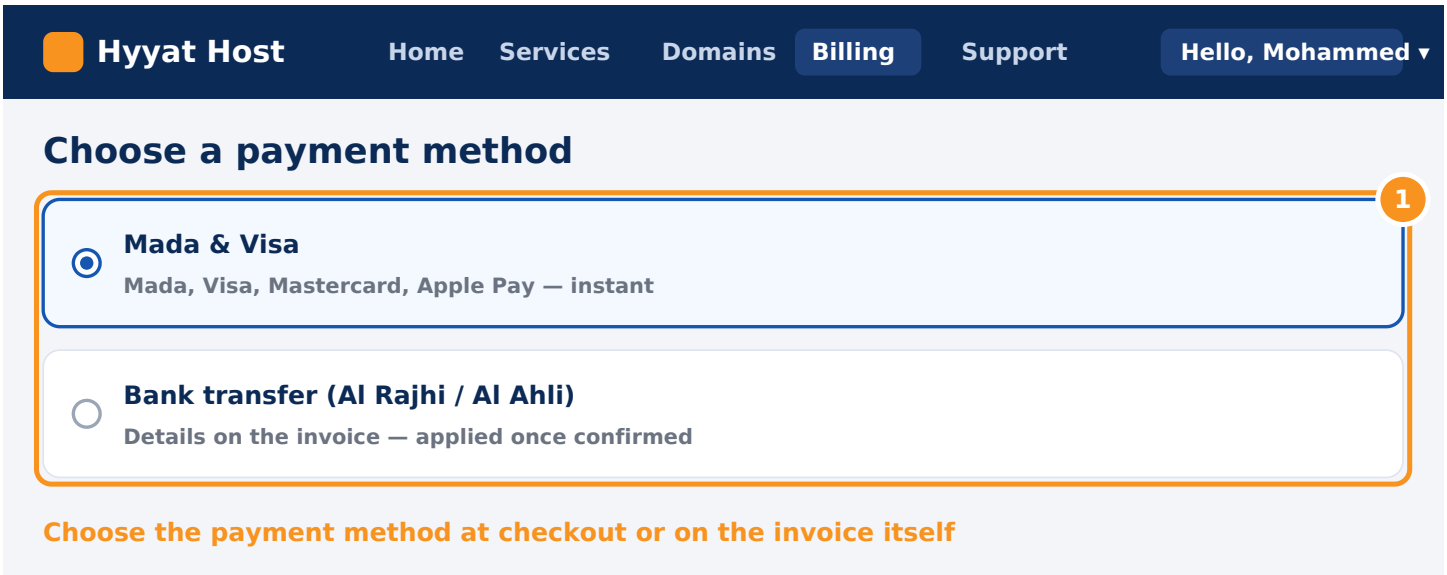

Invoices and Payment Methods · https://www.hyyat.com/en/knowledgebase/payment-methods/

In short: Hyyat Host takes two payment methods: cards through the secure "Mada & Visa" gateway (Mada, Visa, Mastercard and Apple Pay), activated as soon as payment succeeds; or bank transfer to our Al Rajhi or Al Ahli accounts listed on the invoice, then sending the receipt in a ticket. Choose at checkout or on the invoice.

Available payment methods

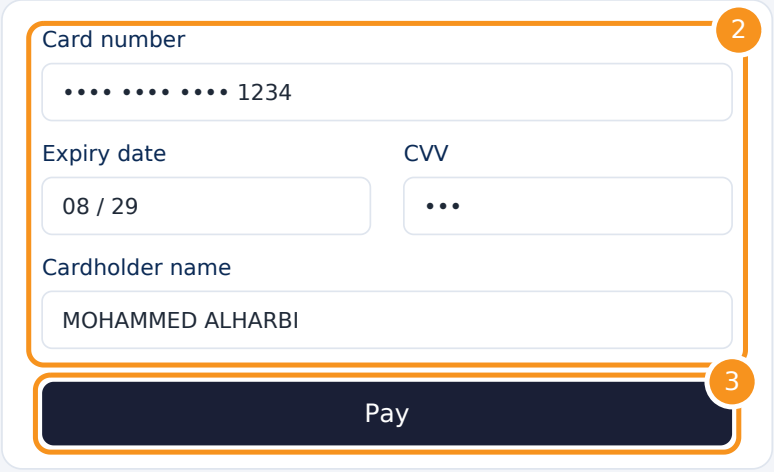

Method	Accepts	When the service starts

Mada & Visa	Mada, Visa, Mastercard, Apple Pay	Right after a successful payment
Bank transfer	Transfer to Al Rajhi or Al Ahli	After the receipt is sent and checked

Paying by card (Mada or Visa)

1. Choose **Mada & Visa** at checkout, or on the invoice in Billing, then click **Pay Now**.
2. You go to the secure payment page (Paymob). Enter the card number, expiry date, CVV (the three digits on the back) and cardholder name, then click **Pay**.
3. Your bank may ask for a code by text. After success you return to the client area and the invoice shows "Paid".

Card payment (Paymob gateway)

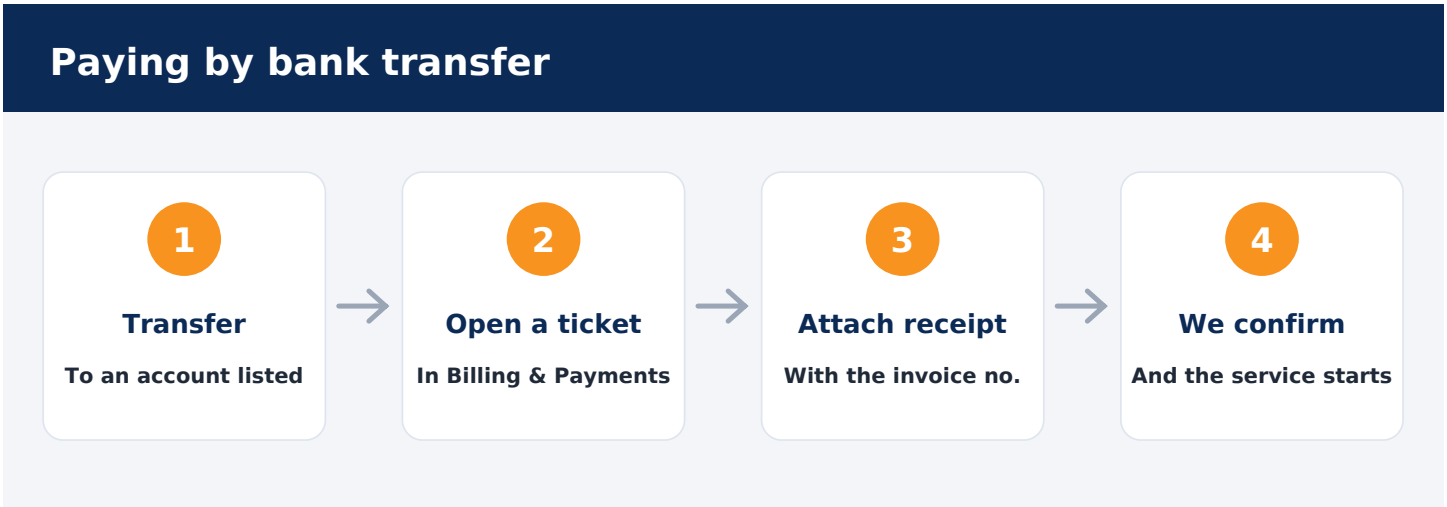

Enter your card details on the secure payment page, then Pay

Important: if you are an older client billed in US dollars, card payment needs your account in Saudi riyals. Open a ticket with Billing to change your currency. Also make sure your card is enabled for online purchases.

Before paying by card: check your card

- **CVV/CVC:** the three digits on the back. If your card has it, it can pay online; if not, ask your bank for a new card.
- **Online purchases enabled?** Some banks turn them off by default. Enable them in your banking app or call your bank before paying.
- **Mada or prepaid card?** A Mada card is linked to your current account and the amount is taken from it directly. A prepaid Visa or Mastercard pays from the balance you loaded, so make sure it is enough.
- **Apple Pay:** available on the payment page on Apple devices with Apple Pay set up.

Paying by bank transfer

1. Choose **Bank transfer (Al Rajhi / Al Ahli)** on the invoice to see our account details.
2. Transfer the exact invoice amount.
3. Open a ticket in **Billing & Payments**, attach the receipt and mention the invoice number.
4. After checking, we apply the payment and your service starts or renews.

For PayPal, see paying with PayPal when available.

FAQ

Is card payment safe?

Yes. Card details are entered on the licensed gateway page; they never reach us and we do not store them.

My payment failed.

Check your balance and that online purchases are enabled, then retry or use bank transfer.

Can I change the method after ordering?

Yes, on the invoice page before paying.

Is tax added?

Any applicable tax is shown on the invoice before you pay.
